

CHIBA PREFECTURAL

ICHIKAWA-SUBARU SENIOR HIGH SCHOOL (2011～)

(ICHIKAWA-NISI SENIOR HIGH SCHOOL)

We are thinking of having the following exchange:

- (1) We cannot invite foreign students financially because our school is a prefectural school and doesn't have any budget that we can use freely.
- (2) If foreign students can afford their transportation to our country, our students' families will take care of them while staying in Japan.
- (3) If it is acceptable, our students may visit the partner school.
- (4) We can accept foreign students who will study at their own expense.
- (5) We can exchange digital animations or pictures of school events or club activities. It must be meaningful to show those of the partner school regularly at "an international corner" or occasionally at a cultural festival.
- (6) What is important for young high school students is to know different daily life spent in a foreign country.
- (7) There must be other ways, but they will be taken afterwards
